

LANE FUND

LIVING A NEW EXPERIENCE

Provides children with a new experience in education, athletics, and/or arts to foster stewardship in the children's local community.

The **LANE** fund believes small acts can achieve big dreams. The **LANE** fund is a non-for-profit established through the American Endowment Foundation. The American Endowment Foundation is the leader in independent donor advised funds in the United States, helping donors achieve their charitable legacy.

Your gifts make it possible to keep Lane's legacy alive while allowing children to live a new experience.

Lane Teacher Creativity Grant: is awarded annually for teachers to complete a project of a new learning experience with the students that may not otherwise happen. Projects selected will enable student growth in mind, heart, and spirit to act as good stewards in their local community.

LANE Community Day: students design a community service program that is conducted annually to help address a local community need. Students and the community at large participate in the one-day event.
